Re: Nuno De Avila

Dear Mr. Dollinger,

Attached is a letter I sent to the Mayor of Sunnyvale earlier this week. The salient point of the letter expresses thanks for the many people who responded to provide building permits in an expedited fashion. I am smart enough to know that this response was because of the effort of both of you, but significantly Mr. Nuno De Avila. Nuno was confident from day one that he would attain the necessary permits over the counter and in record time.

Without Nuno's unwavering abilities and his political savvy, our build out schedule would have been jeopardized. I applaud his confidence and his tenacity to get the job done, and I look forward to working with him over the next several months. Please pass my sincere "Thank You" to Nuno and please keep this letter of gratitude in his personnel file to reflect his commitment to excellence and providing good service for your clients.

Sincerely,

Gary T. Kenney
Facilities and Purchasing Manager
